

Program Learning Outcomes HEALTH SERVICES ADMINISTRATION (CLIMB)

A student graduating with a B.S. in Health Services Administration from the CLIMB program at Wilberforce University will be able to:

- Demonstrate an understanding of the health care system within the United States.
- Apply the fundamentals of business to the health care industry to make sound management decisions.
- Understand the relationship between social behavior and organizational management and to use this understanding to develop strategies to enhance organizational performance.
- Evaluate business performance and issues and develop a strategic plan to optimize the performance of a health care facility or organization.
- Write clearly and effectively on topics related to health care administration.
- Effectively develop and communicate oral presentations as appropriate to a wide variety of audiences.
- Demonstrate career readiness skills necessary to smoothly and effectively transition into an entry level position or graduate program in or related to Health Service Administration.
